Agenda Meeting with Sandy

Location: Library, TU Delft
Datum: 02/06/2022
Time: 14:00-15:00
Attendees: Daniel, Nathaniel (chair), Diego, Lucas (Minute Taker), Kenzo, Sandy Manolios, Cynthia Liem

Agenda-items

[14:00-14:02]   **Opening by the chair**

[14:02-14:03]   **Check-in (mandatory!)**
Everyone was present in this meeting

[14:03-14:10]   **Demo application (dashboard branch)**
- Started with questionnaire demo
- Demonstrate session storage
- Batch number abstracted
- Show changes to recommender
- Show dashboard

Remarks:
- Is score legend always visible? Needs to be. Could keep legend locked in place screen
- Password reset?
- Multiple batches? No only 2
- Reset Study (Delete database and start fresh)? We will not implement it but in the documentation will be clear how to do this for future developer

[14:10-14:14]   **Demo with postman (CSV)**
- Showed all examples on drive
- No Issues with csv's

[14:14-14:18]   **general things about the progress**
- Multiple batches will not be implemented, but the way we've implemented, make it easy to add it

[14:18-14:22]   **Introductions**
- Sandy will send by next week

[14:22-14:25]   **Future**

- TA and client will talk about deadlines for the software project
- Could be week 10
- Who has to book room for presentation
- TU Delft icon

[14:30-14:35]   **Summary action points** – Who, what, when?
- Project is near completion
- The demo seems fine and clean
- Need to start the dashboard connection

[14:35-14:40]   **Question Round**
- *Clients seemed satisfied with product and the direction the project is going in*
- *Can work on some "esthetic" design*

[14:40]   **Closure by the chair**
